ABOUT ME

MAATTY - I’m a young Czech artist living with autism. My work is characterized by precise, abstract lines inspired by urban systems, maps, and movement in space. What began as a fascination with public transport maps evolved into a visual language based on repetition, rhythm, and geometric storytelling..

MAATTY

LIFE & MISSION

Life

I was born with autism. From an early age, it was clear that visual structures had a calming and organizing effect on me. Over the years, my style has developed into a unique artistic expression — a combination of architectural logic and intense emotion.
Despite communication barriers, I fully expresses myself through my work. My paintings are not merely compositions — they are maps of emotion, portraits of thought, and bridges between the inner and outer worlds.

My Mission

To show that art can speak where words fall short, and to inspire others never to give up, no matter how difficult their journey may be.

ABOUT THE GLOBAL CHAMPIONS COLLECTION

CHAMPIONS BY MAATTY is a unique art series. Each painting captures the rhythm, geometry, and atmosphere of a unique show jumping course. Created shortly after every Global Champions event, they tell the story of sport turned into emotion. The series captures the emotional and visual essence of each of the 16 Longines Global Champions Tour Grand Prix races of the 2025 season.

ABOUT THE GRAND SLAM BY MAATTY

GRAND SLAM LINES BY MAATTY - is an another unique art series. Sport is a big inspiration. Almost all sport discipline makes a line. Every line is a decision of someone who wants to win. Tennis makes exact lines that people cannot see, but I do. Each color represents the surface on which the Grand Slam is played, while simultaneously reflecting the colors of the host country's national flag.

MAATTY

ONE DAY

Spring/summer 2027. Egon Schiele's gallery in Český Krumlov ONE DAY 16 paintings represent a single day within MAATTY's visual system. The project is based on a simple yet powerful idea: to capture the transformation of a day — from morning to night — through the structures, rhythms, and maps that are characteristic of the artist's work.
